Lactoflora

Lactobacillus reuteri NCIMB 30242

Composition:

Each capsule contains 2.0 billion CFU of Lactobacillus reuteri NCIMB 30242.

Description:

Lactobacillus reuteri NCIMB 30242 is a natural, over-the-counter probiotic supplement. It was discovered through Proselect, UAS Lab's proprietary discovery enabling technology that identifies non-GMO probiotic candidates with the potential to promote better metabolic health and natural balance through the microbiome.

Indications:

Lactobacillus reuteri is a natural supplement that contains the probiotic Lactobacillus reuteri NCIMB 30242, the first and only probiotic that safely supports healthy cholesterol in adults with moderately elevated cholesterol but within the normal range. Lactobacillus reuteri natural bacteria may help to promote overall digestive health and support the body's normal production of vitamin D₃. It restores normal flora, used to treat bowel problems (such as diarrhea, irritable bowel), eczema, vaginal yeast infections, lactose intolerance and urinary tract infections.

Dosages & administration:

Take one capsule with food twice daily. Or, as directed by the registered physician.

Side effects:

No clinically significant adverse reactions have been observed in therapeutic dosage. Probiotics are likely safe for most people.

Contraindications:

This capsule is contraindicated with known hypersensitivity to any component of the formulation. Lactobacillus preparations are contraindicated in persons with a hypersensitivity to lactose or milk.

Precautions:

There is no data available.

Use in pregnancy and lactation:

Lactobacillus preparations have not been studied during pregnancy, in breastfeeding women, or in women trying to become pregnant. If you are pregnant, breastfeeding or trying to become pregnant, you should check with your healthcare provider before using it to ensure it is right for you.

Drug interaction:

No clinically significant drug interaction has been reported.

Storage:

Keep out of reach of the children. Keep away from direct sunlight. Store below 30° C in a dry place.

Packing:

Each box contains $8 \times 4 = 32$ capsules in alu-alu blister pack.
